

NRC111 & NCC199 Condensing Series

\$200 CASH REBATE

Noritz welcomes you back to the PROCard™ Rewards Program with a \$200 cash rebate!

We want to help you get back into the Tankless Game with Noritz!

For every Noritz condensing NRC111 (SV or DV) or NCC199 (SV or DV) you install this August and September 2010 in the Midwest* you will receive a \$200 cash rebate. Take advantage of this great offer and see why Noritz is the contractor's choice for performance products.

YOUR TANKLESS PARTNER

It's simple to get the \$200 cash rebate.

- 1 Install a Noritz NRC111 (SV or DV) or NCC199 (SV or DV) between 8/1/2010-9/30/2010. at any Midwest location.*
- 2 Register the unit online at <http://procard.noritz.com>.
- 3 Enter promo code: CASH when you register the unit.
- 4 A \$200 check will be mailed to you for every NRC111 or NCC199 registered. Please allow 6-8 weeks for processing.

REGISTER YOUR UNITS AT:
<http://procard.noritz.com>

REMEMBER TO ENTER PROMO CODE: CASH

Disclaimer: The \$200 Rebate for Condensing Units (Promo Code: CASH) is offered and open only to PROCard Member contractors in good standing for installations in the following locations: Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Ohio, Pennsylvania and Wisconsin. Installations in other locations are not eligible. Units must be registered online using the Promo Code CASH by October 4, 2010.

NORITZ NRC111 & NCC199: ENGINEERED TO EXTREMELY HIGH STANDARDS OF DURABILITY AND RELIABILITY

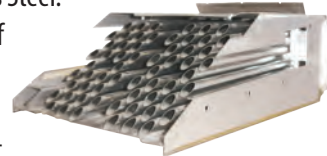

Noritz America has always been an industry benchmark. And the Super Efficient Condensing line of tankless water heaters is no different. Featuring world class design and innovation, it seamlessly blends luxury with state-of-the-art technology all to make you as content and comfortable as possible.

PVC Adapter

Because the exhaust gas temperature is reduced significantly with our condensing units, less expensive PVC can be used for venting.

Stainless Steel Secondary Heat Exchanger

100% Stainless Steel. Built entirely of stainless steel materials, our secondary heat exchanger resists corrosion and is built to last.

Commercial Grade Copper Heat Exchanger

Our heat exchanger has 25% thicker piping to help prevent condensation and erosion, ensuring a longer life.

Built-in Neutralizer

Only Noritz offers condensing units with a neutralizer built-in to neutralize the acidic condensate, making it safe to drain through your drainage system

Pressure Loss

Noritz tankless water heaters are designed to minimize pressure loss, while maintaining

optimum temperature control, for the most comfortable experience.
